

Dotted red lines show where the printer will cut the pages. This red area will get cut off, do not put important text or images here. If you want your ad to print to the edge of the page, make sure your background extends beyond the edge of the page to the black line.

This gray area shows our safe printable area. Please see safety margin for tips on how to use that space.

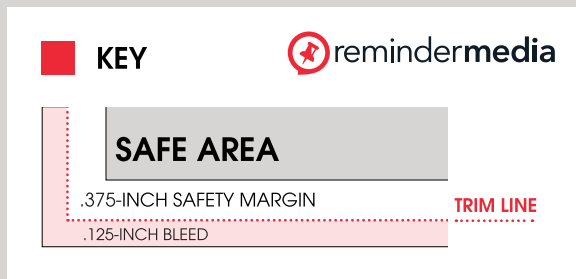

This white area is the .375-inch safety area, do not put important text or images in this area, to prevent it from being cut or trimmed off.
